

Aluminium Rotary Hand Fuel Transfer Pump

26ltr Per Min (approx.)

About the product

The Aluminium Rotary [Hand Fuel Pump](#) is designed for the transfer of diesel, oil and kerosene from a drum or storage tank. Its simple yet reliable nature means that this hand [fuel transfer pump](#) is a great solution when electricity supply is unavailable, or when the expense of a powered fuel pump is not deemed cost effective.

- Manual Oil and Diesel Hand Pump
- Aluminium construction
- Max flow rate: 26ltr Per Min
- 3 part rigid suction pipe
- 25mm bent dispensing spout
- 2" BSP drum connection
