(with closed centre)

### IMPIEGO:

Valvole utilizzate per deviare il flusso in ingresso verso due bocche d'uscita.

### MATERIALI E CARATTERISTICHE:

**Corpo:** acciaio

**Componenti interni:** acciaio temprato termicamente e rettificato

**Guarnizioni:** BUNA N standard

**Tenuta:** trafilemento trascurabile

### MONTAGGIO:

Collegare P all'alimentazione e le bocche A e B ai rami del circuito idraulico a cui si vuole deviare il flusso. Con leva in pos. 1 si alimenta la bocca A, con leva in pos. 2 si alimenta la bocca B. Con leva in posizione centrale le bocche P, A e B sono tutte collegate (centro aperto).

### USE AND OPERATION:

Diverter flow is used to divert the flow towards 2 different outlets.

### MATERIALS AND FEATURES:

**Body:** steel

**Internal parts:** hardened and ground steel

**Seals:** BUNA N standard

**Tightness:** minor leakage

### APPLICATIONS:

Connect P to the pressure flow, A and B to the ports of the hydraulic circuit where flow has to be diverted. With lever in position 1 the flow is connected towards port A; with lever in position 2, the flow is connected towards port B. With lever in central position ports P, A and B are all connected (open centre).
